

Email Alerts

NRSDB will soon cover the entire network and we average about 5 events (Impose, Amend or Withdraw) each day.

Most users do not need to receive every single alert. Some are only interested in a route or a particular line. For example C2C exclusively run on the Southend line and definitely do not want to hear about restrictions in Wales!

To facilitate this every user can control which alerts they receive by "subscribing" to Lines of Route (LOR). We have 843 LORs available.

This is controlled from the User Profile via the top-right menu

Route Subscriptions

☐ West Coast South ☒ Anglia ☐ North and East ☐ East Midlands ☐ North West ☐ Wales ☒ Sussex ☐ Kent ☐ Central ☐ Scotland ☒ Wessex
☐ East Coast

Choose which Routes you are interested in; this determines which Blanket Speed alerts you receive and is also used in the Inspections feature

ESR Alert Subscriptions

Configure your alerts by adding or removing LORs. You will receive email alerts for each ESR that is Imposed, Amended or Withdrawn on the subscribed LORs
