

Select a Team

Select a Team

The "Profile" view will appear so you can select the "Team" that you are working within.

Each Team is responsible for a set of Locations. Each Location should be inspected according to the schedule set by the Seasonal Manager.

The selected team is remembered for future sessions.

If you work across more than one team you can select a new Team at any time by going back to the Profile page (see image below).

The screenshot shows the 'Inspections' app interface. At the top, there is a dark header with the 'Inspections' logo and a hamburger menu icon. Below the header, the 'User Profile' section displays the user's name 'Manager User' and email 'manager@nrddb.uk'. The 'Team' section features a dropdown menu with the text 'Select a team' and a downward arrow. Below the dropdown, a note states 'Each Team is responsible for a number of Locations.' There is also a checkbox labeled 'Send GPS coordinates with Inspection' which is currently unchecked. At the bottom of the screen, there is a 'Version: 2025.1.7' label and two buttons: 'Cancel' (grey) and 'Save' (yellow).

Revision #1
