

Login

Enter your Credentials

Enter your email address and password, click the Login button at the bottom of the view

NOTE: on some mobile phones the Login button can be obscured by the keyboard. Just drop the keyboard down out of the way.

The App will store a secure token so you do not need to Login every time you use the App.

You will need a mobile data connection to perform this step. An error will be shown if the App cannot authenticate your credentials for any reason.
